Re: EB Docket No. 06-36 – CPNI Certification for Securus Technologies, Inc. (f/k/a Evercom Systems, Inc.)

Dear Ms. Dortch:

In accordance with the FCC Public Notice, DA 06-36, released January 15, 2010, Securus Technologies, Inc. (formerly known as Evercom Systems, Inc.) hereby files its Certification of Customer Proprietary Network information ("CPNI") for the year 2010 and a supporting statement.

Sincerely,

A handwritten signature in black ink, appearing to read 'Monica Rodriguez', with a stylized flourish at the end.

Annual 64.2009(e) CPNI Certification for 2011

EB Docket No. 06-36

Date filed: January 21, 2011

Name of company covered by this certification: Securus Technologies, Inc.
(formerly known as Evercom Systems, Inc.)

Form 499 Filer ID: 818026

Name of signatory: Dennis Reinhold

Title of signatory: Vice President, General Counsel, Secretary

I, Dennis Reinhold, certify that I am an officer of the company named above, and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. See 47 C.F.R. § 64.2001 *et seq.*

Attached to this certification is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements set forth in section 64.2001 *et seq.* of the Commission's rules.

The company has not taken any actions against data brokers in the past year. Companies must report on any information that they have with respect to the processes pretexters are using to attempt to access CPNI, and what steps companies are taking to protect CPNI.

The company has not received any customer complaints in the past year concerning the unauthorized release of CPNI (number of customer complaints a company has received related to unauthorized access to CPNI, or unauthorized disclosure of CPNI, broken down by category or complaint, e.g., instances of improper access by employees, instances of improper disclosure to individuals not authorized to receive the information, or instances of improper access to online information by individuals not authorized to view the information).

Signed D. J. Reinhold

Attachment 1

Securus Technologies, Inc. ("Securus" or the "Company"), formerly known as Evercom Systems, Inc., offers telecommunications services to inmates at confinement facilities, including the ability for inmates to complete interstate and international prepaid and collect calls ("inmate calling services"), pursuant to contracts that the Company enters with the administrators of the individual facilities.

To the extent that Securus collects any customer proprietary network information ("CPNI") in providing such services, the Company has internal procedures in place to ensure the security of the data, including its retention in secure password-protected files and other network access security measures. Employees are trained and understand the requirements to keep such information confidential.

Any such information is not sold, rented or otherwise made available to third parties, except to the extent permitted by applicable law and regulation (e.g., 47 U.S.C. 222(d)), including to ensure that inmates do not make fraudulent, abusive or illegal use of telecommunications privileges afforded by the confinement facility administrators.

Securus does not make CPNI available to its sales personnel and does not use, disclose or permit access to CPNI for internal marketing purposes (i.e., for the marketing among classes of services). In light of the limited, foregoing nature of Securus's telecommunications services, Securus does not maintain either an "opt-in" or "opt-out" system with respect to CPNI.

Securus's Vice President, General Counsel and Secretary, Dennis Reinhold, understands the FCC CPNI Rules govern Securus's use and control of any CPNI purposes.
